Marmo-Counter Tops

(Kitchens, Bathrooms & Tables)

The Marmox Co. (Egypt), ISO 9001 certified, specialises in producing heavy-duty and innovative polymeric products for the building industry based on epoxy, polyester, acrylics and polyurethane.

After a long period of intensive research, the Marmox Co. has developed superior quality Marmox Counter Tops for kitchens, bathrooms and tables.

Marmo-Counter Tops are produced from a special modified acrylic material, distinguished for its very high chemical resistance, strength, durability, UV-resistance and accurate dimensions.

Meeting all international specifications, our Counter Tops are very cost-effective and can be customised to accommodate any shape, colour and design requirements. They can include corporate logos, adverts, messages or just attractive designs.

Specifications

Properties	Value
Resistance to immersion in boiling water	0.21164 %
Increase in mass	No effect
Increase in thickness	No effect
Resistance to dry heat at 180°C for 20 minutes	Degree 4
Dimensional stability at dry heat at 70°C ±2 for 24 hours	No effect
Resistance to impact by small diameter ball	No effect
Resistance to staining Acetone 24 h Alcoholic 24 h Salt NaCl solution 24 h Cleaning solution 24 h Coffee 16 h Cola 16 h Sodium hydroxide 10 min Citric acid 20 min	No effect
Compressive strength	75 N/mm ²
Tensile strength	21 N/mm ²
Thermal expansion	Over 1.6 x10 ⁻⁵ /°C
Water absorption	0.0270 %
Fire safety / degree of inflammability	B1 (DIN 4102)
Modulus of elasticity	130 t/cm ²
Specific gravity	1.82gm/cm ²

Advantages

- Easy and cost-efficient installation.
- Will not swell, split, delaminate or spoil .
- Extremely durable, the surface and structural hardness is comparable to natural stone.
- The most cost effective work surface system available.
- Easy to clean and maintain.
- Suitable for every type of kitchen and Bathroom.
- Wide variety of colors and designs available.
